

Richard Epp, PE, CSP

Safety, Health & Environmental (SH&E) Professional

31+ YEARS OF EXPERIENCE

Richard offers over 31 years in safety, project engineering, management for construction, manufacturing, and industry. His most recent 15 years of experience includes being the acting Safety Manager for the Alameda County Water District, a Professional Safety Expert for Google, a Site Safety Engineer for demolition and remediation projects, the Fall Protection Subject Matter Expert and Industrial Safety Engineer for a National laboratory, a Safety Consultant for several medical facilities, and a Corporate Safety Manager for a construction service company. Prior to that, he managed the startup and operation of a 25 MGD municipal water treatment plant, he was the Plant Engineer for glass container/gypsum wallboard manufacturers, and he was the Construction Manager for a cement mortar pipelining company. Richard was also Construction Project/Area Superintendent for several corporations for nuclear/fossil fuel power for refinery industries.

Richard is a recognized authority on Fall Protection training. He has authored articles on the subject that have subsequently been published in OSHA's internal safety newsletter and the American Society of Safety Professional's Safety Journal.
