👤 PROFILE

Rollie is a safety professional with a Master's degree, and 10+ years of experience, specializing in safety and environmental-related measures such as OSHA, Federal, State, and Local Environmental Regulations, and DOT HazMat. With extensive experience as a former safety manager, Rollie is skilled in designing, developing, and implementing safety management systems, conducting comprehensive organizational safety and risk assessments, and identifying occupational safety and health issues.

Rollie's expertise also includes troubleshooting safety management systems and guiding process development, as well as developing corrective action plans to ensure compliance with Cal/OSHA, EPA, and state and local regulations. He is an independent and effective trainer with experience in implementing and developing environmental, safety, and health policies, programs, and procedures.

Rollie's areas of expertise encompass a wide range of safety-related activities such as conducting safety assessments, developing safety plans, delivering training, conducting respirator fit-testing, completing JHA's, performing root cause analysis, and conducting ergonomics assessments, industrial hygiene evaluations, and more.
